HOUSTON, June 20, 2019 (GLOBE NEWSWIRE) -- RigNet, Inc. (NASDAQ: RNET), the leading provider of ultra-secure, intelligent networking solutions announced today that Bardasz, data-driven drilling solutions and real-time services provider, has signed a reseller agreement to deliver Intelie's suite of solutions to Bardasz' customers in Mexico. Intelie Live, RigNet's machine learning- based advanced predictive analytics solution will provide Oil and Gas companies in the region with real-time AI based monitoring that can capture every bit of data across distributed assets, from oil platform operations to pressure-pump engines; in order to capture, process and analyze thousands of events per second in real-time.

"As we work with RigNet, we are committed to provide the latest AI based solutions to provide real-time intelligence for our customers," said Pablo Perez, CEO of Bardasz. "With this goal in mind, Intelie Live is the ideal solution to provide real-time intelligence for our customers. This solution will give our customers greater awareness and information to manage inefficiencies, improve productivity and increase financial performance."

"RigNet is excited to join with Bardasz, one of the region's top data-driven technology solutions provider. With its long history of technology thought leadership in Mexico, they are the logical partner to accelerate the next wave of digital transformation through this offering," says Intelie CEO, Lelio Souza.

"This agreement with Bardasz is indicative of the demand for Intelie's solutions in the Energy sector. With Bardasz' digital capabilities and focus, we expect a successful productive relationship," says Steven Pickett, CEO of RigNet. "This advances RigNet's regional reseller strategy to expand and reach individual markets."
