

RigNet Secures Government Partnership and Initial Contract

July 23, 2020

Alliance brings unparalleled security and connectivity to the government's mobile tenant environment

HOUSTON, July 23, 2020 (GLOBE NEWSWIRE) -- RigNet, Inc. (NASDAQ: RNET), a leading provider of ultra-secure telecommunications and intelligent networking solutions, announced a collaboration with CACI International Inc. (NYSE: CACI) on CACI's Steelbox™ Secure Voice and Text App for government users. CACI's Steelbox combines technologies from Microsoft Azure and from BlackBerry's SecuSuite ® to deliver a government cloud-hosted, FedRAMP-certified, secure mobile tenant environment. RigNet will provide telecommunications interconnectivity throughout the United States, increasing the utility and convenience to government entities.

"RigNet has been providing highly secure, highly reliable telecommunications to customers for four decades," commented retired rear admiral Jamie Barnett, RigNet's Senior Vice President for Government Services. "This is another strategic venture into the government sector, and we are delighted to be working with CACI and Blackberry on SteelBox™ connectivity."

Authorized users can simply download the secure app onto an existing government cell phone via the app store or via a government-authorized Mobile Device Management (MDM) solution. This software-as-a-service (SaaS) solution is convenient to the user and results in significant savings to the government by eliminating the lifecycle costs of acquiring, delivering, and maintaining government-owned hardware and software.

"SteelBox has already opened new lines of secure communications for government agencies at a time when that capability is more crucial than ever," according to Dab Kern, CACI's Senior Vice President for Capabilities & Technology Integration. "We are pleased to partner with RigNet to continue expanding SteelBox's secure communications capabilities."

CACI is a \$5.7 billion company whose mission and enterprise technology and expertise play a vital role in national security, safeguarding troops, and enabling the U.S. government to deliver cost-effective and high-quality support for all Americans.

Forward Looking Statements

This press release includes "forward-looking statements" within the meaning of the safe harbor provisions of the United States Private Securities Litigation Reform Act of 1995 – that is, statements related to the future, not past, events. Forward-looking statements are based on the current expectations and include any statement that does not directly relate to a current or historical fact. Our ability to deliver services, improve crew morale, provide data security and detect threats, and enable our customer's efficiency and financial results are examples of forward looking statements and contain words such as "anticipate," "believe," "intend," "will", "expect," "plan" or other similar words. These forward-looking statements involve certain risks and uncertainties, including those risks set forth in Item 1A – Risk Factors of the Company's most recent 10-K filing, and ultimately may not prove to be accurate. Actual results and future events could differ materially from those anticipated in such statements. For further discussion of risks and uncertainties, individuals should refer to RigNet's SEC filings. RigNet undertakes no obligation and does not intend to update these forward-looking statements to reflect events or circumstances occurring after this press release. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this press release. All forward-looking statements are qualified in their entirety by this cautionary statement.
